

LAKE BUSINESS PRODUCTS EARNS AN ELITE SPOT IN CANON ADVANCED PARTNER PROGRAM

2018 05 29

At Lake Business Products, teamwork, integrity and excellence are our core values, and we will always be there for our customers. In 2018, Lake Business Products has been named a Canon Advanced Partner Program dealer. Canon recognizes the best dealers in the community with this elite program, and we are among less than 10% of Canon authorized dealers to qualify for this honor.

Dealers in the Advanced Partner Program have been recognized by Canon because they have demonstrated superiority in our industry. We are measured by product availability, delivery speed, technical support, training and overall commitment to providing great service.

The Canon Advanced Partner Program status will allow us additional support and tools from Canon. These tools will help our business continue to succeed so that we may continue to help our customers the best way we know how. Our commitment to serving our customers is our top priority. We are proud to be a dealer for Canon. A very special thank you and congratulations to our service team for another outstanding year of providing best-in-class service to our customers.
